Messages in social networks escalate into hate and violence.

OUR PROJECT

In order to fight against hate on the web it is necessary to rely on a dual strategy consisting of effective countermeasures and promoting educational work in the area of media.

Beyond this, young adults from 12 yrs learn how to better deal with (right-wing) extremist hate on the web.

OUR PROGRAM

online training

network for exchange

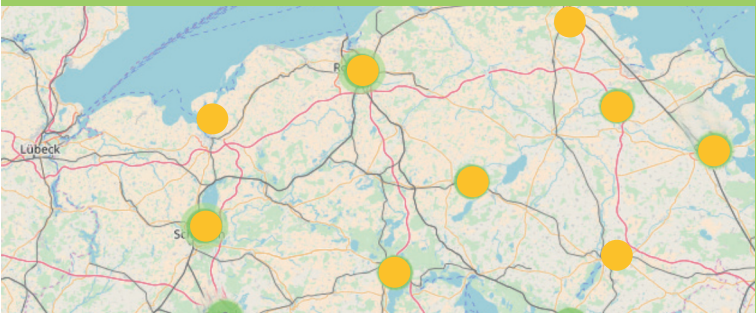

general consulting for multipliers

training of argumentative skills

preventive work to raise awareness by
lectures and workshops

STATEMENT AGAINST HATE

Register now your institution, company
